Adelante® MAGNUM
HEMOSTATIC VALVE INTRODUCER
FOR LARGE VASCULAR ACCESS
The Adelante® MAGNUM is a high performance hemostatic valve introducer for large size vascular access. The Adelante® Magnum features a proprietary multilayer hydrophilic coated sheath, having a special designed distal tip portion to accept and tolerate the insertion and manipulation of large and complex devices. The Adelante® Magnum SureSeal™ technology facilitates optimum hemostasis, allowing the insertion of multiple catheters and wires simultaneously with minimal blood loss.

**Features:**

- Reliable SureSeal™ hemostatic valve technology to minimize blood loss and air embolism even with the insertion of several devices and wires
- Fluid-activated hydrophilic coated sheath, featuring Oscor’s proprietary EnSilk™ coating, for exceptional sheath insertion and access
- Multi-layer sheath design provides exceptional kink resistance, while maintaining superb flexibility
- Clear markings on sheath to indicate insertion depth
- Enhanced atraumatic distal sheath tip with radiopaque marker band for accurate positioning under fluoroscopy
- Dilator locks secure into sheath and accepts maximum guidewire up to 0.038”/0.96 mm
Smooth dilator to guidewire transition

Color coded side port and 3-way stopcock

Reinforced atraumatic distal tip with marker band

Depth markings for easy identification and placement

Dilator with French size and guidewire indicator

Color coded hub with SureSeal™ hemostatic valve

Multi-layer sheath with EnSilk™ hydrophilic coating technology

Smooth sheath to dilator transition

Smooth dilator to guidewire transition
## Adelante® Magnum Set – Includes (1) One Sheath, and (1) One Dilator
