YOUR TRUE CONTRACT MANUFACTURING PARTNER

COMPLETE CONTRACT MANUFACTURING PACKAGING & STERILIZATION SERVICES
From Concept to Commercialization

From concept to commercialization, Oscor designs, develops and manufactures a wide-range of life enhancing medical devices as well as medical implantable grade components. With 35 years of experience, we offer our partners reliable full contract manufacturing services such as R&D, design, engineering, regulatory, clean-room manufacturing, packaging, sterilization and global distribution.
With Oscor as your manufacturing partner, we can offer you product solutions with maximum quality, control and cost efficiency. Ranging from minimal invasive to long term implantable Class III devices, Oscor delivers complete contract manufacturing solutions, that meet the most demanding regulatory requirements.

Oscor’s state-of-the-art facilities are located in the US, Germany and the Dominican Republic. Oscor provides over 150,000 sqft of ISO 14644-1 Class 7 and 8 certified cleanroom environments, including an FDA registered and ISO 13485 certified manufacturing space. Our Contract Manufacturing Capabilities Include:

- Product Design
- Rapid Prototype
- Design Verification Testing
- Mold Making and Validation
- Injection Molding
- PEEK Molding
- Micromolding (<0.001g)
- CNC / Swiss Machining
- Centerless Grinding
- Laser Welding
- Laser Engraving
- Laser Cutting
- Nitinol Processing and Forming
- Extrusion
- Braiding
- Tipping
